

Speaking Center: Clothing

Your school has adopted several 3rd grade students in Argentina who have lost everything due to an earthquake. You will provide clothing for them to go back to school (in March). Using the two visuals of sale ads from the department store, Carrefour, select one of the students below and talk about the clothing you will buy for that student within a budget of 150 euros based on what the weather will be like in March where they live. Use a Celsius-Fahrenheit converter to translate the temperatures.

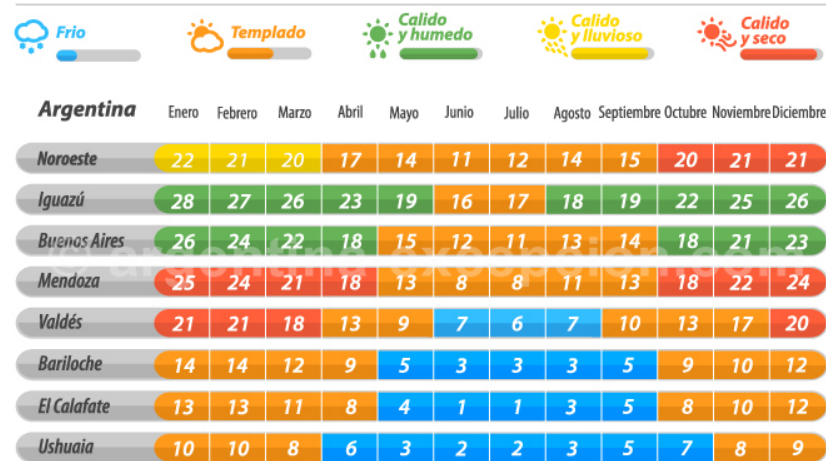

Sonia: Ushuaia
 Miguel: Iguazú
 Rafael: Valdés
 Susana: Noroeste
